Ok, I think I actually got them all! The first one was ATT00001.txt and the text file says "The content image001.jpg of type has been blocked." Maybe it's some kind of logo in your email that is getting blocked. But based on your list and the files attached I should have them all.

Hmmm...they were all pdf's or msg files.

Here is the first one again, let me know if it works for you.

Also, for my info - can EPA not receive zip files?

Thanks, Leanne! Was the first attachment a .zip? I don't think it went through to me. You could change the extension to something else and then I should be able to receive it.

Subject: Responses to CLIPA and Dr. Milne

Hi Miranda,

As we discussed, I am sending you some of Ecology's responses to CLIPA over the years. We've been corresponding for many years and I've dug around to find some of the documentation from before my time. I've also include several letters that I've sent in the past year or so. I have not included the letters they've sent to us – but I have them and can always dig them up if you'd like to see any.

Here is a summary of what I've attached:

- Ecology's response to Dr. Milne's comments from 2014 – these were written by our Environmental Assessment Program. My understanding is that after we responded with these comments a few more discussions led to a scientist to scientist convening. This meeting was held at Ecology and included the Squaxin Island Tribe (and an external scientist that they had review Ecology's work), CLIPA, and DERT (Deschutes Estuary Restoration Team). *[2014July02_ECYMilneMemo]*
- I am also including an agenda from that meeting. If you'd like I also some PowerPoint presentations and even a recording. *[TechnicalDiscusionAgendaFinal110314]*
- Ecology's written responses to Dr. Milnes 2016 report. (I think there was an in person meeting that followed, but I can confirm with Andrew when he returns). *[2016ECYMilneMemo]*
- A letter from our Director Maia Bellon after she met with CLIPA members in person. *[2014Sep24_BellonHavenCurryWubbena]*
- A letter from our Regional Director Sally Toteff in response to a letter and in person meeting. *[2014_Sep02_ToteffMiller]*
- Response from me with specific responses to questions from Dr. Milne and Mr. Wubbena. *[2017_June29_WeissMilne]*
- Response from me with specific responses to questions from Dr. Milne. *[Dr. Milne's Response and Requested Meeting]*
- Response from me with specific responses to questions from Mr. Wubbena and other CLIPA members. *[Response to March 1st Letter]*

There are other correspondences that I have records of. They are similar in theme, but I thought these would give you an idea of our efforts to clarify our work and answer questions from the public.

We will be sending another email in response to their recent report in the next week and I will forward you're a copy of that once it is finalized.

Best,

Leanne
